

MAUI BREWING CO.

19 December 2007

Aloha,

We are in the process of redesigning our packaging and have secured a new source for our six pack carriers. We will be utilizing a new recycled cardboard wrap (i.e. Guinness can wrap) within six to eight weeks.

In the meantime, we have chosen ITW Hi-Cone environmentally friendly six-pack rings for the following reasons:

1. Photodegradable – the rings becomes brittle and breaks down in ultraviolet light, i.e. sunlight in as little as 3 days.
2. Non-toxic – rings contain no heavy metals or toxic additives.
3. Recyclable – rings can be recycled by individuals or in the Ring Leader Program (www.hi-cone.com).
4. Minimal Packaging – the rings have less waste and resource consumption.

For ease of scanning we have included the UPC codes for each product below. We appreciate your continued support and understanding during this change.

If you have any further questions, please call Garrett directly at 808.280.4687. As always please leave orders for products on the order line at 1-877-628-4273.

Mahalo,

Garrett W. Marrero
