

**Position:** Maintenance Technician  
**Location:** Brewery, Kihei, HI 96753  
**Supervisor:** Maintenance Supervisor  
**Manager:** Director of Brewery Operations  
**Pay rate:** \$13 - 17/hour

**Job Description:**

This position is responsible for providing both preventative maintenance and repair function to the facility, equipment, and grounds to ensure all equipment is operating safely, efficiently and production schedules are met

**Job Responsibilities, including but not limited to:**

- Maintain electrical, mechanical, heating and cooling systems, plumbing, gas, air, drain and wastewater systems.
- Maintain of the facility including woodwork, drywall, paint, non-process plumbing, PV panel cleaning, non-process electrical fixtures, outdoor irrigation and grounds etc.
- Maintain materials handling equipment including basic forklift preventative maintenance and safety checks.
- Build, maintain, and troubleshoot draft systems.
- Help monitor equipment to ensure proper operation, and work with production team and vendors as needed.
- Support periodic equipment validation/testing procedures.
- Support all safety programs, including lock-out/tag-out procedures.
- Help manage SOPs and logs for preventive maintenance schedules.
- Assist in ordering, inventory, and logs for tools and parts/supplies, including cost effective approach with vendors and shippers.
- Maintain an organized and clean shop that extends to all areas where work is completed.
- Respond to brewpub requirements as directed.
- Light janitorial duties as needed.
- Respond to emergency calls during off shift as needed.

**Job Requirements:**

- High school diploma or equivalent. A degree in a mechanical/engineering field strongly preferred.
- 3-5 years of work experience in this field. Experience in food and beverage packaging, especially craft brewing strongly preferred.
- Basic welding, electrical, mechanical, plumbing, carpentry and machining. Sanitary Welding experience preferred.
- Understanding of motors, gearboxes, conveyors, bearings, belts, hydraulics, cylinders, and chains, etc.
- Knowledge of AC/DC power, high/low voltage applications, drives, solenoids, RTD/Temperature control, PLC troubleshooting, and touch panels, etc.
- Understand basic fluid flow applications including pipe fitting, pumps, valves, pressures, flow rates, steam, compressed gas, and refrigerant distribution, etc.
- Drivers License.
- Ability to Organize high, mid and low priority tasks.
- Able to travel when further education is required.

**Physical Requirements:**

- Frequent physical movement in a manufacturing environment with moderate to loud noise.
- Work in a variety of outside weather conditions.
- Ability to handle hazardous materials.
- Ability to work on/around potentially dangerous equipment/machinery with moving mechanical parts.
- Ability to work in tight/cramped work spaces.
- Ability to work in high places including ladders and steps.
- Heavy lifting required (100+ lbs.)
- Ability to stand, walk, sit, climb, balance, stoop, kneel, crouch, crawl, etc. for extended periods of time.
- Ability to operate various power tools.
- Ability to drive to pick up parts and materials.

**Benefits:**

- Health insurance
- Disability insurance
- Company matching 401k Plan after one year of employment
- Eligible for performance bonus per Brewery Bonus Policy
- Accrued Paid Time Off (PTO) starts at one week/year based on hire date
